WEATHER OF CONCERN

Weather of Concern

- Fire Weather Watch has been issued from Monday afternoon through Tuesday morning for western Siskiyou County.
 - Moderate to strong gusty easterly winds will combine with poor relative humidity recoveries overnight and very low day time relative humidities to result in very high to extreme fire danger.
 - Any new or existing uncontained fires could grow rapidly.
- Fire Weather Watch has been issued for northeast Del Norte County from Sunday evening until Tuesday morning due to expected east winds, poor relative humidity recovery, and high fire danger.
 - Factors will likely contribute to a significant spread of new and existing fires.
- Fire Weather Watches have been issued from Sunday evening until Tuesday morning for the Sacramento Valley, North Bay hills, and portions of Trinity National Forest.
 - The combination of strong winds, low humidity, and poor overnight recovery will result in increased fire weather danger.
 - Strongest winds are expected in the overnight and early morning hours.
 - Any fires that develop will likely spread rapidly.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

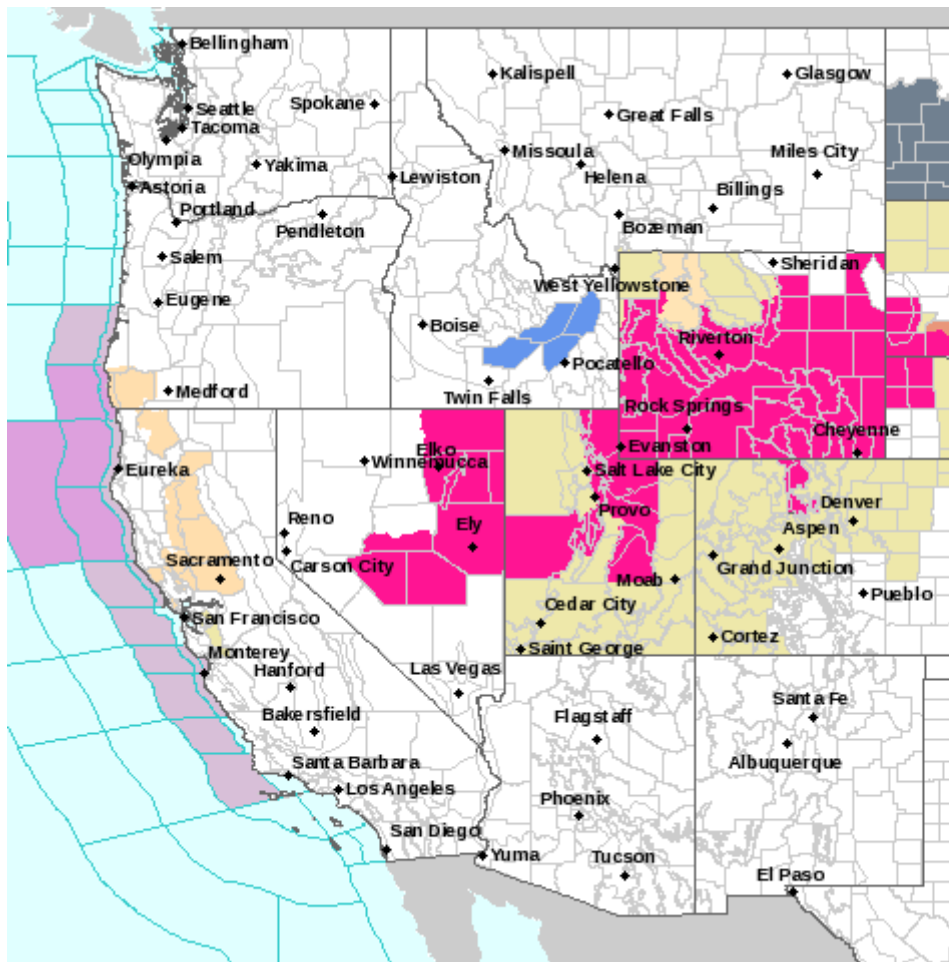

- High Risk for gusty wind and low relative humidity (RH) this afternoon to early evening along and East of the Cascade-Sierra Crest
- N-NE/Offshore winds return Sunday night and last through at least middle of the week with very low RH and above normal temperatures
- Pacific trough passage this weekend, significant ridging will follow.
- Lower confidence for late week into the following weekend in terms of when the ridge breaks down.
- Increasing winds this weekend, gusts 20-30 mph, locally up to 35 mph along and east of the Cascade and Sierra Crest this afternoon, transitioning N-NE Sunday later afternoon-overnight with gusts 20-30 mph favoring the upper Sacramento Valley.
- Developing offshore flow Monday through Wednesday with locally gusty winds.
- Slight RH increase, especially western areas, this weekend although teen readings remain across the far east and pockets within the Sacramento Valley.
- Significant dry airmass most of next week with single digits and teens afternoons and poor RH recoveries at night.
- Broadly speaking near normal temperatures this weekend and above to well above normal next week.
- No precipitation likely next 7 days.

SOUTHERN CALIFORNIA

- A weak ridge of high pressure will remain over California today. A weak Pacific trough will move into the West Coast Sunday and Monday. Another weak ridge of high pressure will build into the West Coast from the Pacific Ocean Tuesday through the end of next week.
- Temperatures will remain a little above normal today, with mid 70s to mid 80s across the mountains and upper 80s and 90s in the valleys.
- Temperatures will cool to near normal Sunday and Monday.
- There will be south to west afternoon and evening winds of 15 to 25 mph with gusts to 40 mph across the deserts through Sunday.
- Temperatures will warm back up to a little above normal Tuesday through the end of next week.
- Minimum humidity will be mainly in the teens away from the coastal areas through the end of next week.
